

DR. SADLER'S FIRST SERMON IN RICHMOND

New Pastor of Methodist Church Given Cordial Greeting At Both Sunday Services

A splendid audience was in attendance on the Sunday morning service at the Methodist church, when the new pastor, Rev. W. O. Sadler, preached his initial sermon. Dr. Sadler was given a most cordial welcome to Richmond by all. It was based on Paul's letter to the Romans, when in the first two verses of the 12th chapter, he voiced those immortal words, "I beseech you, therefore, brethren, by the mercies of God, to present your bodies a living sacrifice, holy, acceptable to God which is your spiritual service. And be not fashioned according to this world, but be transformed by the renewing of your mind, that you may prove what is the good and acceptable and perfect will of God."

This sermon was the first of a series which Dr. Sadler will preach on "The Kingdom of God as Set Forth by Paul the Apostle." He gave the outlook upon life and upon the idea of the Kingdom of God as seen by the twelve disciples, the majority of them being fishermen and men of limited education; then in striking contrast, was the viewpoint of Paul, the cultured and brilliant Roman scholar. The modern critic could never accuse Paul of failing to realize what he was giving up, when he followed the Christ, for he was a Roman citizen by birth, a Greek scholar who sat at the feet of Gamaliel, and a Hebrew of the Hebrews, of the tribe of Benjamin. Paul knew what the splendor and glory of Roman life was; Rome was at the zenith of her power, her great highways opening up travel and trade to all parts of the Roman Empire; Greece, with her art and culture, had made her contribution to the world in that day; while the Jews, through their dispersion, had dotted all parts of the empire with their synagogues. The Apostle Paul was the epitome of these three great forces, but when the light shone down on the Damascus road, and the voice of Christ was heard, he lifted up his face, saying: "Lord, what wilt thou have me do?" Paul had caught the vision of his Master, and in answer yielded up his life to Him.

Dr. Sadler brought out in a very clear, forceful way, the thought that in the material world, man cannot do his work successfully unless the materials with which he works, yield to him; so only can God the great Master Builder, work out His plan for us, as we yield our lives to him. Then, in a most telling illustration, which gripped even the attention of the children who sat before him, the speaker cited the caterpillar as a worm that destroys the plant life by feeding on its leaves, until in some mysterious way, God spoke to it, and the worm yielded up its life to its Creator, by ceasing to eat, and instead, weaving a cocoon into which it crawled and slept, to awaken later into a new creature; no longer the destructive caterpillar, but a beautiful butterfly, sipping the honey from the flowers and carrying the pollen from one to another, thus becoming a conveyor of life. So man, in his sin, is a destructive creature and living on a low plane of life, but when he yields his body to His Maker, he is transformed into a new creature in Christ Jesus.

Dr. Sadler also spoke of the different heathen religions and of the magnificent temples in which they worshiped, the ruins of which can be seen today in some parts of the Oriental lands. He stressed the difference between those religions in which the believers sacrificed human bodies to satisfy their gods, while Christianity teaches, we need no longer to offer burnt offerings, since Christ the Son of God gave himself as a sacrifice to man, and those who accept Christ as their personal Savior, Mediator and Example must present their bodies as a living sacrifice.

The climax of the whole sermon was summed up in a few brief sentences, when the speaker concluded by saying, that every day men and women are sacrificing victims to the lust of the flesh while others, in pursuit of wealth, and in their ambitions for worldly preferment, are offering victims

METHODISTS' NEW PASTOR

Rev. William Owen Sadler

upon the altars of selfishness.

At the evening service, which was also well attended, the pastor read from the 16th chapter of Romans, when Paul sends his great treatise to the church at Rome, in care of Phoebe, who, he says, had been a great help to him and to many others. The speaker paused in his reading, to pay a most beautiful tribute to woman, saying that God often commits to women the most precious things, and how, He did not find a man was good enough to be the father of His only Son, but that a pure, good woman, the virgin Mary was chosen to be the mother of Jesus Christ.

Taking for his text the 16th chapter of Romans, when Paul said, "I am not ashamed of the gospel, for it is the power of God unto salvation to every one that believeth." Dr. Sadler preached a powerful sermon on the power of the gospel to save us from sin. He pictured our cities with their courthouses, jails, penitentiaries, the great police force that is necessary, and other officers of the law, all of which testify to the fact that there is sin in the world; and while all of these remedial measures must be used, it is the power of the gospel of Jesus Christ, of which Paul spoke, that can save us from our sins.

The Richmond church is to be congratulated upon having such a man in their midst. Dr. Sadler has been a member of the Kentucky conference for 19 years, having served in that time, some of the most prominent churches in the conference. Last year, he was sent to Barboursville, W. Va., where he taught Bible in the Morris-Harvey College there, and also assumed the duties of the small church in that college town. He graduated from the University of Kentucky, taking his Master of Arts degree from that university, and later was a student at Vanderbilt. Dr. Sadler has a wife and two sons, who are spending the winter on the Gulf Coast, and will not come to Richmond until the first of the year. The pastor is boarding at the Glyndon Hotel during the absence of his family, and will have ample time in which to get acquainted with his congregation.

Richmond Fire Chief To Attend Convention

Chief Ben R. Daugherty, of the Richmond Fire Department, will attend the annual convention of the Kentucky Fire Chief's Association at Louisville this week. He will leave Wednesday for the opening meeting and remain through the convention which continues for two days. There will be a business meeting, election of officers, and general reports made. It is probable the Richmond chief will tender a report on conditions as they exist in his home city.

At Tarrytown, N. Y., seven persons were killed in an automobile which crashed through a bridge railing, precipitating them to railway tracks below.

WOMEN OF MAINE CASTING FIRST VOTE

(By Associated Press) Portland, Me., Sept. 13.—Men and women went to the polls today to elect state and county officers, a legislature and congressmen. It has been told throughout the campaign that the eyes of the nation were upon them to give a traditional indication of the political sentiment of the country in the presidential election.

The republicans claimed a victory by 30,000. The democrats are confident, but indulged in no figures. The issues have been national, with chief emphasis on the League of Nations. The women voted for the first time. Both parties claim the support of this new element.

Call For Bank Statements

(By Associated Press) Washington, Sept. 13.—The Comptroller of Currency today issued a call for the condition of National banks at the close of business on Wednesday, September 8th.

Thunder Resuscitates

(By Associated Press) Winchester, Ky., Sept. 13.—John Acton, 86, pronounced dead by a physician, was aroused by a thunder clap and early today was still living.

BELEATED SESSION OF CITY COURT MONDAY NIGHT

The beleated session of city court will be called to order at the usual hour Monday night by City Judge G. Murray Smith and there promises to be considerable business, since there were a number of cases postponed and continued from last week's session. There will be a number of law violators, it is said, who have been trying to "break through" for some time. One of the cases carried over was that against a number of young men said to have been guilty of shooting craps and gambling generally. It is the desire and intention of the police to stop this practice and more severe measures are anticipated in some cases where the charges are proven. There are no speeders this time, thus far, at least to pay their respects to the court, the recent fines seemingly having been very effective.

REPORT ON GAS TAX IS SOON TO BE COMPLETED

While County Court Clerk Jennings Maupin is awaiting the remainder of the reports for the month of August regarding the sale of gasoline, there is known to have been a large supply consumed, and the report, which will be completed soon, will show a favorable report. State tax amounting to a goodly sum each month from the county as a result of gasoline. During the summer months when the maximum quantity was consumed by the farm machines. However, there has not been any reduction to speak of. All wholesale dealers have not issued their reports for the past month, a fact which is delaying the report.

The Kentucky state fair will open next Monday.

OFFICERS THINK WINNES IS INNOCENT

But Prison Agent Says All Road Convicts' Actions Are Accounted For In Harlan

Frankfort, Ky., Sept. 13.—Road Superintendent Green, who is in charge of the convict camp on Pine Mountain, near the scene of the murder of Miss Lura Parsons on Tuesday, arrived here last night and reported to Warden Moyer, of the State Reformatory, that the movements of all prisoners in the prison camp have been accounted for. There is nothing to indicate that any of them could have committed the crime, he said.

Harlan, Ky., Sept. 13.—Sunday's developments in the search for the slayer of Miss Parsons, Pine Mountain Settlement school teacher, narrowed the trail of two men, both of whom are known to Sheriff Howard and his deputies and can be reached at any time, the sheriff said last night.

The man believed by Sheriff Howard to know all the facts concerning Miss Parsons' brutal murder on a lonely mountain pass Wednesday is one of the convicts in the state labor camp a half mile from the scene of the crime. He has not been charged with the assault and murder of the young woman, but can be taken by the officers at any time. The sheriff would not say who the other man suspected is.

Sheriff Howard stated yesterday that he did not believe Dr. H. C. Winnes, veterinarian, held in connection with the murder, is guilty, but he will be kept in custody pending further developments.

The authorities place much value as a clue on a small purse carried by Miss Parsons at the time of her murder which was found Sunday 150 feet from the lonely pass where the woman was killed. It had been rifled of its contents and only a parcel post check remained in it. When it was taken to the local postoffice it was found to be one given to Miss Parsons when she checked a suit case here.

Finger prints experts may be asked to examine the purse and see if any marks can be used in establishing the identity of the murderer.

The Harlan county grand jury will begin a complete investigation of the murder Monday. Dr. Winnes will be one of the chief witnesses to be examined.

An indictment charging murder may be returned against the suspected convict.

The scene of the murder and the surrounding country was thronged with hundreds of men, women and children from over the section on Sunday and Harlan is full of people trying to find facts concerning the murder.

Dr. Winnes accompanied Sheriff Howard and deputies on their tour of investigation Sunday, visiting the scene of the crime. He displayed no emotion, it is said, when taken to the cliff where Miss Parsons was thrown over after it had been cruelly assaulted and the head crushed with an oak fence stake. Dr. Winnes assured the officers that he will do all in his power to assist in the solution of the mystery.

Friends of Miss Parsons Sunday told of her work at Pine Mountain school, where she was an assistant teacher in domestic science, and of her conscientious effort toward improving living conditions in mountain homes.

The convict camp is being kept under guard for fear of trouble. The men brought here from the State Reformatory at Frankfort to work on the roads. Ten of them were sent back to Frankfort after the crime was committed. Warden Moyer has authorized Deputy Sheriff C. J. Nolan to take charge of the camp and do anything that would lead to the discovery of the murderer.

STREET WORK PROGRESSES

Asphalt is being laid on Lancaster avenue and with favorable weather this thoroughfare will be finished as far north as Main street, when the work toward the east will be taken up. This will admit of the avenue being opened within a period of about two weeks. Without interruption, the main street work will now progress rapidly, since most of it has been treated to the concrete supply, which precedes the asphalt.

The national board of farm organizations, in session in Columbus, Ohio, rejected the plan for a nation-wide wheat pool to be controlled by farmers, declaring the project not feasible.

BARN IS BURNED; LIVESTOCK ESCAPES

Firemen Have Difficulty In Saving Home of John Allman On Collins Street

The barn of John Allman on Collins street was burned, together with its contents Sunday night, the conflagration which was of unknown origin, continuing until an early hour Monday morning despite the efforts of the firemen who worked like Trojans in an effort to save it and the residence nearby.

The fire, which was announced by telephone at 11 o'clock, entailed a loss of \$4,000, with little or no insurance. There was a quantity of hay and corn stored away together with some straw, harness, etc. The flames seemed to gain headway as if by magic, and the residence nearby was threatened for some time. The structure usually contained a horse and cow, but these animals were allowed to go in and out at will, and they left the building soon after the arrival of the firemen. The automobile of Mr. Allman is usually kept in the barn but this vehicle was left outside which probably saved it from destruction.

Mr. Allman stated Monday he could not determine the cause of the fire, since there were no persons in or about the building to his knowledge during the evening. It is very probable a new structure will occupy the old site, since the building is necessary.

All of the city firemen with the exception of Earl McDougle, who is in Louisville, were in attendance, and the complete force experienced considerable difficulty in saving the Allman residence.

HARDING MAKES MORE PROMISES

(By Associated Press)

Marion, O., Sept. 11.—In a double barreled attack on the administration, Senator Harding today charged that democratic officials were guilty of "reckless inefficiency" in the conduct of the nation's business affairs and had sought through "duplicitous or mis-understanding" to have the United States surrender the Monroe Doctrine in becoming a member of the League of Nations. He said his own policy toward business would be to end "ineffective meddling by the government, wipe out many war time restraints, seek readjustment of tariff levies and taxation and establish new co-operation between government and private enterprise."

HARDING TALKS TO NEGROES

Marion, Ohio, Sept. 11.—Five delegations of negro Republicans representing various organizations, on the race in the north and south gathered at Senator Harding's front porch yesterday and pledged him their support in several hours of characteristic demonstrations and oratory. In response the Republican nominee made two speeches praising the loyalty and attainments of the nation's negro citizenry and promising that the federal government "will not fail the American negro."

He asked that they make service to country everyday standard of their citizenship and declared his abhorrence of the use of "brutal and unlawful violence against the black race or any other class."

COL. DUNN SELLS FINE FARM

The I. M. Dunn Real Estate Agency, Danville's real estate firm, sold for Mr. J. L. Butler his farm of 190 acres, located just over the line in Lincoln county, to Messrs. Adam and Enoch Smallwood, of Pike county. The consideration was \$35,150.

"HEADS WILL FLY"

Berlin, Sept. 11.—An extraordinary declaration by former Emperor William, made on the grounds of his residence at Dorn, is reported by Vorwarts in a story purporting to emanate from a Prussian junker who visited him recently. It is stated that the former emperor was chopping a tree when he suddenly exclaimed, as he struck furious blows with his axe: "This is the way heads will fly to the right and left when I return to Germany." Commenting on the remark, Vorwarts says: "It shows Wilhelm in all his greatness as a politician."

Today's Livestock Markets

Cincinnati, Sept. 13.—Good cattle steady; others slow; hogs steady; Chicago 25c higher; lambs steady.

Weather For Kentucky

Local showers tonight; Tuesday probably fair; mild temperature.

COX'S THROAT HURTS BUT HE'S GAME

Democratic Candidate Says Some Are Trying To Bruise Up the Dead Liquor Question

(By Associated Press)

Portland, Ore., Sept. 13.—Governor Cox, whose throat has been giving him trouble the past few days in his campaign tour of the west, was examined Sunday by a specialist, who declared the governor's throat was in a bad condition and advised him to cancel some of his speaking engagements. This Governor Cox declared emphatically he would not do. The trouble was diagnosed as speaker's laryngitis.

Liquor A Dead Issue—Cox

Seattle, Wash., Sept. 13.—Governor Cox, of Ohio, democratic presidential nominee, Sunday night made his first public declaration in regard to prohibition.

The governor, after an introduction in which his sponsor, George C. Cotterill, had denounced assertions that the candidate was a "wet," made the following declaration to a large audience:

"As a progressive in government, I know when an event has passed by and become a part of yesterday. The reactionary rarely does. The friends of world peace and the friends of progress will win this election, and the attempts to divide them on any question not an issue will be unavailing."

MUST GET WARRANT TO SEIZE LIQUOR

New York, Sept. 11.—Federal Judge Garvin in Brooklyn Friday upheld United States Commissioners' decisions that seizure of liquors without a search warrant is a "clear violation of the fourth amendment to the constitution."

This finding attracted attention from the bar generally and was accompanied by much speculation on reports that it largely would do away with attempts to try alleged Volstead act violators on information and liquor improperly seized.

"As the agents of the government had no reason to believe that any violation had taken place," Judge Garvin said, "their search of the premises without a warrant and the seizure resulting therefrom was a clear violation of the fourth amendment to the constitution and no conviction could be had on evidence so obtained."

"The rights guaranteed to the people by the fourth amendment cannot be disregarded. As a part of the fundamental law of the land they were granted as a safeguard against oppression."

Richard P. Ernst, Republican candidate for the senate, will open his speaking campaign in Danville September 17.

PLAN ELABORATE NORMAL OPENING

Additions To Manual Training and Other Departments—Faculty To Assemble Soon

Plans are maturing for the opening of the Eastern Normal next Tuesday a week and there will be recorded in the near future the assembling of the faculty, said to be the most complete and qualified yet secured by the officials of the institution. There are many features of interest that will appeal to the students this term. One will be the more commodious quarters with the completion of the dormitories for girls and boys. These will add accommodations for many, besides the normal reservation capacity of last year and, it is believed, will do away with the necessity of so many seeking quarters elsewhere than on the campus grounds. This will be a feature much appreciated by many, since the winter season is not relished by some when long trips have to be made to and from the institution.

Another innovation will be the additional training department, which will be the most extensive in the history of the school. There will be inducements to the young men who desire to go to the farm, and they will be equipped with the knowledge of farm work and mechanical knowledge that will be out of the ordinary, since there will be special stress laid upon this.

Preparations for a gymnasium, to prevent this interesting feature being obliterated owing to the burning of the gym building some time ago, will be taken up at the meeting of the board of regents on September 13. The electrical department will be of more than usual interest this term, owing to the new equipment and additions to the building which will house parapneumonia for a number of new lines to be introduced.

Prof. G. D. Smith, of the science department, is preparing to take up his work and is of the belief that he will have the largest number of pupils as well as at number of other departments in the history of the school. There is every indication that the patronage this term will be very extensive. The enrollment is also indicative of a large percentage of new students from various parts of the state.

JEWISH NEW YEAR MONDAY AND TUESDAY

The Jewish New Year will begin Sunday evening at 6 o'clock and end Tuesday evening at the same hour. A number of Jewish stores here will close during Monday and Tuesday. Yom Kippur, a day of atonement, will be observed about ten days later.

Rosh Hashanah, or New Year's day, is the first of the "Ten Days of Repentance," which ends on Yom Kippur or the Day of Atonement. These days, the most sacred in the Jewish calendar, mark a preparation period for "Sabbath of Sabbaths," the holiest day of the Jewish year.

Although the new month, Tishri, to begin Sunday, is the seventh in the Jewish calendar, it is celebrated as the beginning of the year 5681. In the Bible the day is termed the day of Memorial or the day of the Blowing of the Trumpet.

CAR OVERTURNS, KILLS BRAKEMAN

A box car on a local L. & N. freight jumped the track near Elkin's station, 14 miles north of Richmond, shortly before noon Monday and brakeman William Gilbert, of Red House, was killed, he being pinned beneath the car, which overturned. The train was preparing to stop, it is said, when the accident happened.

Gilbert is reported to have been thrown from the car and it was some time before his body was released from beneath the debris. The train is said to have been going at a low rate of speed when the accident happened. It is believed a flange on one of the wheels of the car broke. When the train was stopped a number of cars were thrown across the track and traffic delayed for some time.

Gilbert was the son of Jap Gilbert, of Red House, and unmarried. He had been in the employ of the railway company for a number of years.

Goodbye Pennant Monday—Reds 2; Phillies 6.

GOES 70 MILES TO GET TANLAC FOR HIS MOTHER

Son Says She Gained Seventeen Pounds By Taking It and Her Wonderful Improvement Is the Talk of the Neighborhood.

"It's no wonder everybody sees a change in mother since she began taking Tanlac, for she has gained seventeen pounds and can get about better than for the last twenty-five years," recently declared T. S. Ellis, well known live stock dealer, living at Rumsey, Kentucky.

"My mother is 68 years old and for eight years had suffered from loss of appetite, nervousness, constant headaches, severe pains in the chest and back and frequent spells of dizziness. She became so bad off about five years ago that she had to give up all her housework and spent most of her time in bed. During all that time she neither knew what it was to have a well day or a night's rest, and her condition became so alarming that we never expected

to see her up and about again.

"One day she read in the papers about someone who had been greatly helped by Tanlac, and nothing would satisfy her until she had tried it herself. So I drove 35 miles to Evansville and got her a bottle. She's had four bottles since then and she has actually gained seventeen pounds in weight, and its years since I saw her looking so well. She praises Tanlac all day long, and her remarkable recovery has made such a stir around Rumsey that scores of other sick people have been taking Tanlac with splendid results. I make a trip to Evansville every week and always carry back a load of Tanlac for the neighbors. We all think there is no medicine like it, and I'm glad of this chance of telling everybody about what it did for my mother."

Tanlac is sold in Richmond by Stockton and Son; in College Hill by Ginter Brothers; in Berea by Welch Department Stores. It

FOR COUNTY JAILER:
SAM HUNTER.

IS THE PRESIDENCY FOR SALE?

(By Savoyard)

Washington, Sept. 9.—Gov. Cox charges, and no one has the effrontery to deny, that the "party of great moral ideas" is raising an enormous boodle fund with which to conduct the political campaign in "a practical way." Wall street, which dominates the senatorial oligarchy, which in turn dominates the Old Guard, which is again become the G. O. P., would cheerfully pay a big wad of money to secure the appointment of John W. Weeks as secretary of the treasury in the cabinet of a standpat republican president. You can always trust Wall street to know on which side of its bread the butter is spread.

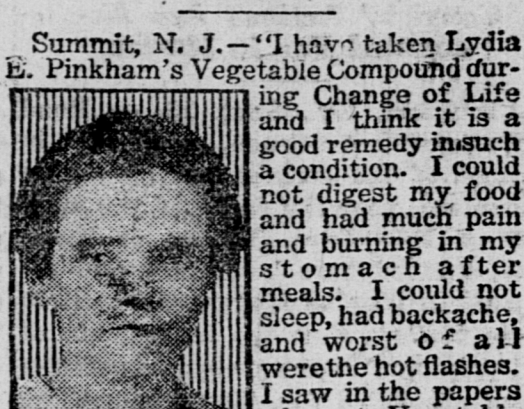

When William G. McAdoo became secretary of the treasury in President Wilson's cabinet, he found in the treasury building a desk at which for years had sat a clerk of the biggest bank in the city of New York—the biggest bank in the United States. This clerk was not an employee of the government; his salary was paid by the bank, and his sole duty was to keep in touch with the national bank statements of resources and liabilities and telegraph the amounts to the bank in New York, to the end that Wall street might have the valuable information a few minutes sooner than the general public. Sometimes—ofttimes, in fact—that gave valuable and precious advantage to that bank in Wall street operations.

About the first thing that Mr. McAdoo did as secretary of the treasury was to order that clerk out of the department and assign his desk to a government official. That act of "Wilsonism" is one of the numerous things the G. O. P. charges as "inefficiencies" of the democratic administration. And it is such democratic "inefficiencies" that make Wall street a standpat republican.

Does anybody believe that Wall street is giving millions to the republican campaign fund as a matter of patriotism? If such credulous person there be he ought to be subjected to a curfew law. He hasn't sense enough to be out at night. Wall street is an investor. It never parts with money except as a purely business transaction. If it gives millions to the republican boodle funds, depend on it, it expects to reap a rich harvest from the venture. Candidate Harding and leading standpatters are committed to a change in the federal reserve banking law. This law was enacted by a democratic congress soon after Mr. Wilson became president over the protest and despite the opposition of every henchman of Wall street in both houses of congress. Elihu Root and Cabot Lodge were conspicuous in their assaults on the measure. Its chief excellence was that it broke the grip Wall street had on the money in the national banks. The resources from those banks were deposited in New York and employed for speculation on

WOMEN OF MIDDLE AGE

May Pass the Critical Period Safely and Comfortably by Taking Lydia E. Pinkham's Vegetable Compound.

Summit, N. J.—"I have taken Lydia E. Pinkham's Vegetable Compound during Change of Life and I think it is a good remedy in such a condition. I could not digest my food and had much pain and burning in my stomach after meals. I could not sleep, had backache, and worst of all were the hot flashes. I saw in the papers about Vegetable Compound so I tried it. Now I feel all right and can work better. You have my permission to publish this letter."

—VICTORIA KORFL, 21 Oak Ridge Ave., Summit, N. J.
If you have warning symptoms such as a sense of suffocation, hot flashes, headaches, backache, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness, get a bottle of Lydia E. Pinkham's Vegetable Compound and begin taking the medicine at once. We know it will help you as it did Mrs. F. Korfl.

the stock exchange, but the new law provided other centers also for the assembling of those enormous sums of currency where they could be employed to promote legitimate business ventures. There has been no financial panic since that law was passed and nobody adversely criticizes it except the reactionaries who plead for the "old order," or as Harding expresses it in a word of his own manufacture "normalcy"—that means the grand old days of Aldrichism.

The New York Tribune denies the Democratic party any credit for the Federal Reserve Banking law, because it says that its chief provisions were incorporated in a bill considered by a republican congress in 1909. But that congress refused to pass the bill and the New York World tells the Tribune that the idea of the reserve banking law was the conception of John G. Carlisle, who laid the scheme before congress in an elaborate letter he wrote while he was a democratic secretary of treasury. Be that as may be, the real credit for the reserve banking law belongs to William G. McAdoo and Carter Glass—the former secretary of treasury in President Wilson's cabinet, and the latter chairman of the committee on banking and currency in a democratic congress.

If the presidency is bought in 1921 as it was in 1880 and 1888, the "party of the great moral ideas" will buy it as it did in the years cited, and it is a cardinal tenet of the G. O. P. that it is given to the republican party to do evil that good may result therefrom. The G. O. P. is a patriot according to its conception of that virtue. It is thoroughly convinced that the country will go to the dogs unless it is put in charge of the government. Possibly it has a faint suspicion that to buy an election is wrong, but its philosophy of corruption of the elaborate is virtuous if it result in republican rule.

Hypocrisy is the moral malady that the G. O. P. contracted as soon as southern reconstruction ceased to be the political paramount in our glorious union. And for nearly half a century the G. O. P. has been the sycophantic henchman of Wall street. Is the presidency for sale in 1921? We shall see in November.

Executor's Sale

As executor of the estate of Mrs. W. L. Todd, deceased, I will sell at Public Auction to the highest bidder, on

Wednesday, September 15, 1920

at 10 a. m., on the premises, near the residence of the late W. L. Todd, deceased, the following property:

180 ACRES Blue Grass Land

Situated on Paint Lick and Wallacetown pike, in Madison county, Ky., about two miles north of Wallacetown, and three miles south of Paint Lick.

Thirty Acres of this is Fertile Bottom Land, and one hundred and fifty acres in **Blue Grass**, which has not been plowed for fifty years. This farm is a good money maker.

This farm has good dwelling, two tobacco barns, outbuildings, fences, well watered and in good condition. Possession will be given January 1, 1921. Seeding privilege given at once.

Second Tract—Forty-six and one-half acres of mountain land in young timber, adjoining the C. B. Blythe farm on the Berea and Wallacetown pike, about two miles west of Berea.

- 1 Shorthorn cow and calf
- 1 Shorthorn heifer, 2 years old
- 1 rubber tire buggy; 1 set buggy harness
- 1 \$50 Liberty Bond, Fourth Issue.

Anyone desiring to look over either of these tracts of land before the day of sale will call on G. B. Todd or James Todd, Paint Lick, Ky., or J. L. Gay, Berea, Ky.

Terms made known on day of sale. This property will be sold rain or shine. Estate must be settled.

BEREA, KENTUCKY

COLORED COLUMN

One of the most interesting and significant events in my experience as agent occurred Friday afternoon, September 10, at the Peytontown school house, where Miss Hattie Peoples, home demonstration agent, conducted a most interesting canning demonstration under the auspices of the Peytontown art club. The Peytontown colored school house is located on a beautiful blue grass knoll overlooking the village, the railroad and one of the finest farming sections in Madison county. Accompanied by Miss Peoples with her canning outfit, I reached the school house at 11 o'clock, finding the school in session and crowded with clean happy children. There were present a number of women and soon others began to crowd in, carrying baskets covered with snow-white cloths, which made me think of Thanksgiving and Christmas. What seemed to be two infernal machines turned out to be two harmless ice cream freezers. I was introduced to the crowd by Miss Estela Yates, the efficient teacher, whose industry, unflagging interest and tact have won the hearts of these people in a way seldom seen. I spoke of the value of club work, of how it promotes social intercourse, co-operation and unity of purpose. I spoke of the importance of keeping alive civic pride which manifests itself in neat, attractive homes, with books, papers, music and flowers. I spoke of the importance of a larger and more varied food supply, larger and better crops, gardens and orchards and more poultry, swine and dairy products.

Miss Peoples was introduced and spoke briefly of her work and plans.

After the speaking the women took their baskets out under the trees and spread the finest dinner I ever saw spread on a like occasion. There were present 25 women, young, middle-aged and old, and 50 young people. At 1 o'clock the demonstration began, and I never saw more interest displayed than when the young demonstrator began to talk and work, while the girls and women gathered around her. It was an event that will long be remembered in Peytontown and will result in great good. Miss Yates deserves great credit for the exceptional arrangements and happy results.

HENRY A. LAINE,
County Agent.

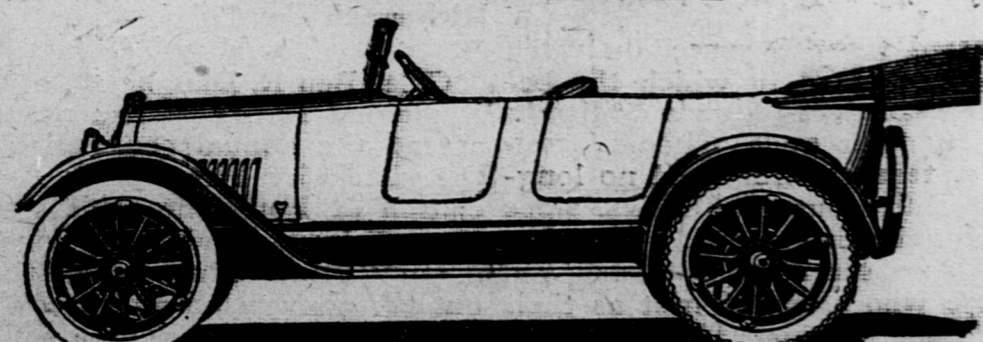

MEMORIALS TO FAMOUS CONFEDERATE GENERALS

(By Associated Press)

Winchester, Va., Sept. 11.—Memorials to two Confederate generals, Stephen Dodson Ramseur and James Johnston Pettigrew, both North Carolinians, will be unveiled here during the coming week at the places where they died. Many southerners, principally North Carolinians, are expected here for the exercises, which will be under the joint auspices of the North Carolina division of United Confederate veterans, the North Carolina division of United Daughters of the Confederacy and the North Carolina Historical Commission.

The memorial to General Ramseur, which marks the Belle Grove House where the general died October 20, 1864, will be dedicated on the afternoon of September 16. The memorial to General Pettigrew which marks the Boyd House where he died July 17, 1863, will be dedicated on the morning of September 17. The two memorials consist of granite columns, the gift of the late Colonel P. H. Mayo, of Richmond, Va.

Look Out for Rheumatism As Winter Approaches

So many cases of Rheumatism come from a tiny disease germ that infests the blood, that physicians are beginning to realize that this source of the disease is becoming quite prevalent. Of course a disease that has its source in the blood cannot be reached by local remedies applied to the surface. One remedy that has given splendid results in the treatment of Rheumatism is S.S.S., the fine old

blood remedy that has been sold by druggists for more than fifty years. S.S.S. acts by driving out of the blood the disease germ that causes Rheumatism, thus affording real relief. Begin taking S.S.S. today and if you will write a complete history of your case, our medical director will give you expert advice, without charge. Address Chief Medical Adviser, 151 Swift Laboratory, Atlanta, Ga.

The heart of the home.

The heart of the home is the kitchen, and the enjoyment of the home life largely depends on the good things that come out of the kitchen.

To own a Majestic is the ambition of every housewife who realizes what this supreme quality range would mean to her in better baking and lighter work.

To have a Majestic Range in her kitchen is the hope of every woman who knows how beautiful it is in design and appearance, and how sanitary it is in finish.

Majestic means economy in the kitchen, as well as better baking and less work. Food is saved, because the Majestic's perfectly built oven always bakes right. Fuel is saved, because the cold-riveted construction is absolutely heat-tight—permanently so. Repairs are saved, because the Majestic frame of malleable iron is unbreakable, and its body of charcoal iron by actual test resists rust 300% greater than steel.

The Majestic is made in only one quality—the best—but there are many styles and sizes. Come, make your choice of the Majestic range for your kitchen.

RICHMOND REPORT WILL BE EXTENSIVE

Local Facilities For Caring For
Needy Veterans To Be Im-
proved By Government

Stone Norman, secretary of the Red Cross Home Service, will go to Cincinnati Thursday in answer to a call from headquarters asking that all secretaries report there on that date for a three days business meeting. The session will close Saturday night. The work will have to do with the district Red Cross work, which is becoming very extensive as other organization affiliated with the work of assisting the overseas men. There will be reports from the various secretaries, and Mr. Norman will have an interesting report to make, since the work here has been very extensive. There were more than 200 claims adjusted and given attention alone during the past month.

This is but a part of the work connected with the local office, since it embraces various lines connected with the veterans of the late war. Dr. Jeffries, who has been looking after the medical end of the cases brought before him, has been receiving more calls during the past six weeks than ever before. There are a number of veterans in Richmond and Madison county who require medical and surgical aid regularly and this is but a part of his work.

Reports have it that there will be a change in the manner of administering to the veterans here and that more adequate facilities for caring for the men will be provided in the near future. The nature of the plans in hand is not known at this time, however, it is said that no efforts will be spared in making the work along the various lines the most modern and compatible with the situation possible. For some time there were calls for aid, but as months pass, the number has increased until the representatives of the service are busily engaged daily caring for the veterans in one way or another.

Tobacco growers in Fayette county are paying \$6 a day for laborers.

COUNTY SCHOOLS GOING FULL BLAST

The high schools of the county, which started on the second week of the new term, are being well attended. The indications are the term will be very successful, although there are many permits for workers among the students being issued. The indications are the term will be very successful, since it is claimed the placing of instructors in the various institutions was never more pleasing nor promising.

There has been much interest manifested upon the part of the students generally, as well as the faculty and members of the board and with the close of the working season and the full quota of students is recorded, the work will be under full sway. The improvements at the various buildings which has been done during the summer is appreciated and the situation generally is better than has been presented for a number of years.

BIG POSTAL BUSINESS

The month of August was another good one for Uncle Sam at the Richmond postoffice, receipts showing, according to the report not yet issued, a continuation of the unusual business which has been evident during the past three months especially. Postmaster Stockton is pleased with the outlook, and has begun to think the business increase is a permanent one and that business generally is increasing.

At Baltimore nine men are dead and four men in a serious condition from drinking wood alcohol.

NATURE PROVIDES THE INGREDIENTS

Argo-Phosphate, the New Herbal
Remedy, Now Endorsed by
Local People

If the digestive organs are not properly performing the work which nature has assigned to them, the nutrition, which is absolutely essential to the recovery of other diseased parts, will be lacking and there will be no permanent relief. When bodily nutrition is normal, the stomach digests the food, the blood absorbs and carries the nourishment to the various parts of the body, causing the various organs to properly perform their functions.

Nature has provided a remedy in the ingredients of Argo-Phosphate, the new herbal stomach remedy which is now being introduced here. It is purely vegetable, and its vitalizing, corrective and reconstructive qualities are so pronounced that beneficial results are noticed from the first day. That this is true, it is only necessary to listen to the statements made daily by local people who have given Argo-Phosphate a fair trial and have been benefited thereby.

It is dispensed by Richmond Drug Company.

CURATOR'S NOTICE

Having been appointed Curator by the Madison County Court for the estate in Kentucky of John R. Gibson, deceased, and to collect and preserve said estate, we request those persons indebted to or holding property or other thing of value belonging to said estate, call on the undersigned and settle or report same. Anyone knowing of such, will please advise the Curator thereof. TWO FARMS

in That Famous Hanging Fork Valley

168 Acres of Wheeler Bros. and 166 Acres of G. H. Pennington to be

Sold AT AUCTION WEDNESDAY, September 22

In Lincoln county, Kentucky, on the Danville and Stanford pike. The Wheeler farm 4 miles from Danville, 6 miles from Stanford. The Pennington farm 5 miles from Danville, 5 miles from Stanford. These farms adjoin and comprise 334 acres and is one of the best tracts of land in Lincoln county to be found in one body. To those who know the mere statement of this land being on "Hanging Fork" is sufficient recommendation and insurance of its fertility.

Remember we sell to suit the purchasers, so if you only want a part of either of these farms, we will sell you a tract the size you want. Also the opportunity to buy both farms making over 300 acres to the man who wants a large farm. We can "Cut the Cloth" for the "Little Man" or the "Big Man."

Description of Wheeler Farm

Long frontage on pike—a beautiful and attractive home—dwelling of 8 rooms, 2 porches, concrete floors, cistern, large stock barn with cistern, 2 tobacco barns 40x108 and 30x40, new garage and all outbuildings. Fine lawn to pike with plenty of shade. Farm is well fenced and everlasting water, 3 concrete pools and springs. Everything on the farm is in first class condition. 40 acres in corn, 12 acres tobacco, 33 acres timothy, 53 acres in Old Blue Grass Sod, balance in clover and orchard grass. Don't take my word—look over this farm and if you are looking for something good and desirable you will be a bidder.

Description of the Pennington Farm

(known as the Bosley farm). Long frontage on pike, has an 8 room old frame dwelling with ell-front porch and fine cellar, 2 concrete silos, each 16x50, close to new metal roof stock barn with room for 100 cattle, 10 acre tobacco barn, large mule barn, stock scales and cribs combined, other out buildings. Right on Hanging Fork, abundance of stock water. 85 acres in corn, 13 acres tobacco, balance in grass mostly Blue Grass Sod. 50 acres of Hanging Fork Bottom on this farm and if some one wants to buy this tract of bottom land alone, we will try to sell it separate. Balance of the farm can be sold in two tracts. We can fit you out in a 100-acre tract. Tell us what you want.

Can run machinery over all of both of these farms. No waste land. Strong fertile limestone soil in high state of cultivation. Investigate these farms before you buy. Why has Swinebroad sold more real estate than any other man in the business and will continue to do so? Come to this sale and we will tell you why. A square deal to everybody. The owners of the land I sell become bidders at my other sales when they want another farm. There is a reason.

The Wheeler farm will be sold at 10 o'clock sharp, rain or shine. After dinner the Pennington farm will be sold promptly at 2 o'clock. This may be the last chance to buy this kind of land so conveniently located. Don't delay—get in touch with "Real Estate Headquarters."

Easy Terms. Possession January 1, 1921. For further particulars see the owners at the farms or W. E. Moss or R. H. Dever at my Danville office, or W. A. Dickerson or George Swinebroad at my Lancaster office, or

SWINEBROAD, The Real Estate Man, Lancaster, Ky.

The Best Auctioneer in Kentucky will be on the block. Get the dates of our other sales. Book your dates for our October sales.

COX BASES CAMPAIGN ON THREE BIG ISSUES

G. O. P. Slush Fund, League of Nations and Reconstruction Plan His Top-Liners

The following interesting review of the campaign is from Louis Seibold, star political correspondent of the New York World.

Chicago, Sept. 8.—The leaders of the two major political parties have practically completed their task of shifting the wheat from the chaff in the matter of issues they believe will finally prevail in the contest for the presidency.

Gov. Cox has reduced and simplified the issues on which he has elected to fight to three—his charges that the republicans have conspired to raise a fund of \$15,000,000 to "buy the presidency," the League of Nations, and a general reconstruction plan designed to meet the consequences of the world war.

It is not clear to Senator Harding's most ardent supporters just what he regards as the paramount issue of the campaign unless it be a general condemnation of both the war and peace records of the Wilson administration.

There is little question in the minds of leading republicans that Senator Harding would like to drop the League of Nations and center the batteries of his party on purely domestic topics, such as taxes, the high cost of living, and the depreciation in the value of Liberty Bonds.

Despite the assurances of some of the Senator's backers, they privately admit that his analysis and interpretation of the League of Nations is "muddy," to say the least. They attribute this fact to the lack of decision on the part of the republican candidate as to just what one of the three or four formulas advocated by the factions of his party really favors.

May Seek To Explain
It is said by some of the republican leaders here to watch the Senate inquiry into the Cox charges that Mr. Harding will make another attempt to "clarify" the republican position on international problems generally and the League of Nations especially.

The hazy views of the republican candidate on the Wilson policy, which Gov. Cox has accepted as reflecting the truly American and genuinely democratic attitude toward foreign affairs, pretty clearly illustrates the difference between the republican and democratic styles of campaigning.

Gov. Cox is running his own campaign and telling his advisers what he is going to do, although he has instanced his ability to keep his own counsel even from them, as shown by the secrecy which he conducted his investigation into the republican campaign fund.

Senator Harding seems to have a dozen bosses and he is manifestly trying to please all of them, with the usual unsatisfactory results.

The dominant group of bosses who assented to his nomination—Daugherty, (who "put him over"), National Chairman Hays, Bois Penrose, Alvin T. Hart, John W. Weeks, and a half dozen others—formulate every move to be made by the republican candidate, and usually he is the last to know it.

Takes No Initiative
Mr. Harding has not made a single move without consulting the leaders of the groups who are managing him and his campaign. Gov. Cox has not hesitated to embark on any venture that in his judgment is the proper thing to do. He is not confronted by one-tenth of the embarrassments that surround Mr. Harding every day. There are no breaks or factional disputes in the democratic party to stop him from doing anything he believes to be proper and advantageous in carrying his fight to the people.

The republicans are compelled to mind their P's and Q's at every step. No better proof of this fact was provided than the consternation recently caused by young Theodore Roosevelt in Chicago. The son of his father accepted an invitation to speak to a political club on Wednesday. He was on his way to the meeting place when one of the national leaders who accompanied him re-

TWO STILL HELD IN MURDER CASE

(By Associated Press)
Harlan, Ky., Sept. 13.—The result of the analysis of a blood stain on the sleeve of a coat worn by James Robinson, a negro convict, last Tuesday, the day Miss Lura Parsons, of the Pine Mountain Settlement School, was murdered, delayed the freeing today of Dr. H. G. Winnes, state veterinarian, held here on a warrant in connection with the case. The coat was found in Robinson's bunk. He admitted wearing it but could give no account for the blood stains. An investigation revealed that Robinson was attending his duties as water carrier for the convict road crew in the immediate vicinity of the spot where the woman was slain.

The coat, with blood stains on one sleeve, was found hanging on Robinson's bunk. It belonged to the negro cook, who said one of the convicts had been wearing it, but he did not know which. Roberts was unable to explain the stains. He is being held under surveillance at the camp. The coat was sent to Lexington for a laboratory examination to determine if the blood is that of a human or an animal.

That the negro had opportunity to murder the Settlement School teacher was revealed yesterday. He has been employed in carrying water between a branch and the road machinery crew. His route on the pike crossed the mountain trail on which Miss Parsons was walking.

The negro was seen at 11:30 o'clock at the branch eating lunch. The next time he was seen was between 12:30 and 1 o'clock, according to the officers. Miss Parsons was killed about 12:30 o'clock, it is believed. The scene of the murder was 300 feet up the mountain trail from the crossroads.

Evidence that the slayer of the teacher was at the crossroads is shown by the disclosure Sunday that the fence rail to batter her head was one which had been stuck in the ground at the intersection of the two roads. Several persons Sunday identified the rail as the same one.

Following discovery of a small purse, rifled, on the trail back toward the convict camp, Sheriff S. S. Howard is searching for the large pocketbook which contained the small purse.

The convict, Roberts, while questioned closely Sunday, was not told that he is suspected of the murder, but his every movement at the camp is being watched and no chance is being taken on his escape. He was sent to the reformatory from Fayette county to serve a three-year-term for robbery. He is 35 years old and a native of Paris, Bourbon county.

called the fact that there is a bitter primary contest on between the Thompson and Lowden factions that reminds one of a dog fight.

Recalling the sad experience of Charles E. Hughes in butting into the California primary contest four years ago, young Roosevelt was directed to send regrets to the waiting republicans. Profiting by the Hughes experience, republican national leaders have decreed that there shall be no campaign in any states where primary contests are in progress. These will be out of the way in ten days, and the republicans will then turn loose an army of spellbinders to carry the fight to the democrats.

Alarmed By Cox's Vigor
The vigorous campaign inaugurated by Governor Cox has dissipated much of the confidence of the republican leaders that the country is eagerly awaiting an opportunity to rebuke the Wilson administration. There is no question that the advantage still remains with the republicans, for various psychological reasons. Yet the men who were positive before the nomination of Governor Cox that "any republican can beat any democrat this year," have been compelled to revise their opinion.

I think the best analysis of the situation I have yet heard comes from one of the republican leaders who has been through many campaigns.

"Our problem," said this veteran, "is to keep from losing what we appear to be reasonably certain of winning. Cox has got to fight to win what he has now apparently lost."

The committee after hearing a number of witnesses completed

The New Fall Suits, \$37.50 to \$180.00

All the new Autumnal tones: Dryad, Suchow, Zannibar, Malay, Bedouin, Nanking, Red Feather, Pine Needle, Maduro, Otter, Faison, Men's Blue and Black are represented in our showing of distinctive models for the Fall of 1920. There are suits of Velveteen, Duvel de Laine, Duvelveteen, Tricotine, Velour and Serge. Belted models, plain tailored models, ripple effects and many novelty effects. Many buttons, braid or embroidery trimmed. These are suits for the miss, the matron, and a very special showing for the stout figure.

The New Fall Dresses, \$30.00 to \$100.00

Charming indeed are the new Fall Dresses. Made of fine Satin, Kitten's Ear Crepe, Charmeuse, Tricotine, and Serge. Embroidery work and beading play an important part in the trimmings. Individuality is the striking feature of the new Fall Frocks and ours bear the stamp of all that is new.

Irish and negroes are battling in New York, the police having been called to various parts of the city where disturbances are being reported.

RACE HORSES ARRIVING

FOR LEXINGTON MEET
Seven carloads of horses arrived on Sunday night at Lexington from Canada for the races, and will be taken from there to the Latonia tracks, where 15 carloads arrived Monday. It is said there will be the greatest aggregation of racers ever assembled there at the latter tracks for the coming meet, and horse men believe the session will attract the largest crowds in years, owing to the stakes and the lively competition for a number of special purses.

crop and prevent a wide spread of this insect to your neighbors' fields.

CREEKS OVERFLOW AND MUCH TOBACCO IS LOST

During the heavy rainstorm Saturday, Otter creek as well as others was soon overflowing the banks and there was considerable damage done to tobacco producers, it is said. In some localities, the tobacco which had been cut and staked near the creek was washed away. Shelby Burgin, residing near White Hall, is among the largest losers, as is Norman Francis, living to the north. He and Mr. Burgin claim their losses will be considerable.

Mr. Ross Foley, of Ravenna, was with Richmond friends Sunday.

BOARD OF REGENTS HAS BUSY SESSION

Contracts Are To Be Let and Other Important Measures Up For Discussion

A number of important matters confront the board of regents of the Eastern Normal, in session Monday at the institution, among them being the contracts for a number of new buildings, the question as to whether the gymnasium building will be rebuilt at this time and other improvements under contemplation.

The contract for a coal storage buildings will be one of the features of the session, and this will be let, since it is desired that the accommodation be provided as soon as possible. It is planned to have the building erected and fuel for the winter purchased in the near future.

The matter of heating the dormitories, both of the new buildings now under course of construction, will be taken up and disposed of, since this contract, too, will be let in regard to the heating system to be installed. The work on these buildings, which was started some time ago, was reported upon and is progressing very favorably. Both buildings will be completed, according to the contractors, within the specified time and their aid will soon be in evidence.

There is a probability of the construction of another gymnasium building to replace the one burned some time ago, and this will add to the importance of the meeting. The members will decide upon the nature and dimensions of the contemplated building, together with the probable cost, and announce their decision. Routine business dealing with still further building will also be taken up and it is believed the present meeting will be one of the most important held for months. Indications are that the term soon to be opened will start off with unusually bright prospects.

COX OUTLINES DETAILS FOR FINANCIAL POLICY

(By Associated Press)
Portland, Ore., Sept. 13.—Governor Cox here today outlined details of his financial policy, which included proposals for a budget commissioner to act as executive assistant to the president.

He also declared there was need of constructive measures for the development of Alaska and discussed the material results to the League of Nations, pointing out that no readjustment worth while can come under reactionary guidance.

STRIKE LEADER DENIES MEN WILL RESUME WORK

Chicago, Sept. 13.—John Grunau, president of the Chicago Yardmen's Association, one of the unions which called the switchmen's strike April 1, today denied the widely circulated reports that the strike had been called off. He said the majority of the unions had refused even to take a vote on calling the strike off, while Chicago district men gave a majority of 500 to remain out.

PACKERS DENYING THAT THEY MADE BIG PROFITS

Atlantic City, N. J., Sept. 13.—Addressing the opening session of the convention of the American meat packers here today, Thomas E. Wilson, of Chicago, president of the association, said none of the big five packers had received as much as a cent and a half on each dollar of sale in nineteen. "One packer," he said, "earned one-eighth of one cent per dollar of the sales, while the average of the five was less than one cent."

Britain Accepts Cox Plan

London, Sept. 13.—That Britain is willing to submit the settlement of the Irish question to the League of Nations if it has not been settled before the American elections, was the statement of the Foreign Office today.

Britain is prepared to take radical action to appease American sentiment, except that it will not consider the independence of Ireland.

"Britain is willing to submit the Irish question to the League of Nations," was an official statement from the Foreign Office today. "If James M. Cox is elected we'll put no stone in the way of settlement along the lines he has suggested. If settlement has not been reached before the November elections, we're willing to put the entire situation up to the League and abide by its decision."

DIES FROM INJURIES UNDER TRUCK WHEEL

J. C. Marston, prominent Garrard county citizen, died Friday night at his home near Bryantsville, as the result of an accident sustained a few days ago while operating a large truck. Mr. Marston was riding on the truck near his farm. In some way he slipped and fell and his coat caught and he was thrown beneath the machine and one of the wheels ran over his body. He was removed to his home where he lingered several days between life and death.

Deceased was 50 years old and is survived by his wife and one son. He was a native of Garrard county, and after retiring from active business, he decided to return to his home county and take up farming. The funeral was held in the Presbyterian church at Lancaster Saturday afternoon at 3 o'clock, and the burial was in Lancaster cemetery.

Mr. Marston and family recently moved from Corbin to the Bryantsville neighborhood, where he purchased a farm of Clay Williams. He was prominent in railroad circles and held the position of master mechanic and general foreman on the Louisville and Nashville for a number of years. Just before leaving Corbin Mr. Marston sold the Corbin electric light plant, which he had owned and operated for a number of years. He was also at one time general foreman of the Chesapeake & Ohio railroad, with headquarters in Lexington.

Immense Crop of Corn With Tobacco Second

(By Associated Press)
Frankfort, Ky., Sept. 13.—Crop prospects indicate a production of 107,000,000 bushels of corn, as against 82,000,000 bushels last year, and a tobacco crop of 442,000,000 pounds as compared with 456,000,000 pounds last year, according to the September state crop report issued today.

CALDWELL SCHOOL IS FORMALLY OPENED

The opening of the Caldwell school Monday morning was reported, although it is expected to be several days until the regular routine is in evidence, owing to the work of removing some of the working paraphernalia due to the extensive improvements made there. The work had been rushed during the past week with the view to getting it finished, the force of men being doubled during the week.

There will probably be a number of changes after the school is well under way, owing to the improvements. There will be a delay in the opening of the gymnasium, it is expected, but all of this will be assured for the

near future, when the students who are looking forward to the feature will be greatly pleased. This will record the start of the last of the city schools as well as those of the county. The colored schools of the county opened one week previous to those for the whites are reporting good progress as well as attendance generally.

WITH each package of Rookwood coffee we sell this week, we give free, a package of Rookwood Tea. D. B. McKinney and Co. 221 6

Ry. Employees Sanction Harding's Stand, 'Tis Said
(By Associated Press)
Marion, O., Sept. 13.—A delegation of railway employees in Marion and nearby cities today marched to Harding's front porch in a demonstration of allegiance to his candidacy and of their disagreement with labor leaders opposing him because of his support of the Cummins-Esch act. The delegation carried a resolution reciting the visit was in protest against a misrepresentation of his position on railway laborers. A speech by the nominee reiterated his faith in the Cummins-Esch on the program followed.

Governor Cox Refuses To Cancel Any Speeches
Salem, Oregon, Sept. 13.—Gov. Cox, after speeches scheduled at Salem and Portland today, was booked to make a swing eastward as far as Salt Lake City and double back westward to the Coast, to fill his California engagements before resuming his eastward trip. Cox is accompanied by a masseur who is treating the Governor's throat. Gov. Cox was advised to cancel some of his speaking dates but refused.
